Geological Technician(s)

Company Overview

Talisker Resources Ltd. is a resource company that is engaged in the exploration and development of mineral properties in British Columbia. Our flagship property is the Bralorne Gold Mine located 195 KM northwest of Vancouver and 120 KM west of Lillooet. The Bralorne Belt land package is comprised of over 48,700 hectares of mineral tenure over 66 KM of strike. This land package incorporates historic past producing mines, near-mine brownfields exploration potential, and frontier exploration opportunities. The Company is well funded to advance its aggressive systematic exploration program at its projects.

Talisker Resources is led by one of the most experienced and successful exploration and leadership teams and boards in the business. This team has been together since the early 2000s and has a clear vision of what it takes to be successful in resource exploration and development and has the experience and knowledge to execute that vision.

Staff describe the company culture in terms of being a positive, collaborative environment with these commonalities:

- Consists of a really good team of people
- Respectful, flexible, helpful environment
- Friendly environment
- Everyone has a common goal

Talisker is an equal opportunity employer committed to employment equity and they foster a work culture that supports personal and professional development.

Cultural Fit

- Personality plus - kind, caring, respectful, team player
- Someone who is curious and wants to learn
- Not too serious but hard-working, positive, can-do attitude
- Very accepting, open and honest, transparent
- Persistent, patient, flexible, approachable, friendly
- Professional demeanor – high standards and professional integrity
- Is able to work independently when required
